Socio-Development Program

The Chrysalis Preschool

Hutech International Group has initiated an aggressive campaign to support Chrysalis Preschool's whom has a desperate need for funding or facing the closing down of the school in November 2009.

Chrysalis Preschool provides a unique bridging program for children aged between 3 and 5 years who have various special needs. They offer a specialised curriculum within a multidisciplinary therapeutic setting. Children receive Occupational Therapy, Speech Therapy, Music Therapy, Physiotherapy and Hydrotherapy.

Therapeutic and educational objectives are decided upon based on each individual child's needs, and no more than 5 children are assigned to a class to ensure personal attention. Scholastic preparation and independence training, such as dressing, toileting and feeding, are both the focus of the presented program.

Chrysalis Preschool is a non-profit organisation and relies on fund raising and various donations to improve the quality of life of children with disabilities.

A holistic approach is applied to each child and intervention is provided in each functional area of the child's life including school, play, social skills, activities of daily living (dressing, feeding, toileting etc) and family dynamics.

Chrysalis Preschool strives to develop each child's distinctive potential and equip them with necessary skills to fulfil their role as child, friend and scholar, to the best of their ability.

**For donations or to find out more about Chrysalis, please contact:
Debra at (041) 360 9844**
